

Terms defined as obscene

Under the City of Walla Walla's [Posting Policy for Social Network Services Sites](#), certain content is prohibited from being posted on our social media accounts. One category of prohibited content is that which is "obscene."

As follows are the terms the City considers to be obscene, whether they are entered in a comment or included in an image or graphic, or any other type of video or audio file:

- The word "fuck," and any alternate spelling or derivation thereof in which the intended meaning is clear, including acronyms and the emoji 🍑
- The word "shit," and any alternate spelling or derivation thereof in which the intended meaning is clear, including acronyms and the emoji 💩
- Slang terms for genitals, and any alternate spelling or derivation thereof, including acronyms
- Slang terms for sex acts and procreation-related substances, and any alternate spelling or derivation thereof in which the intended meaning is clear, including acronyms

This list may be updated as we encounter additional terminology that may be defined as obscene.
